High School Academies

Many high schools, some in collaboration with colleges/universities and fire departments, have established fire fighting academies. These academies are excellent opportunities for high school students to graduate with marketable skills. Here are links to some of these academies. School districts are seeing the value of these programs and new academies are opening annually.

[Crenshaw High School Fire Academy, Los Angeles, California](#)

[James Monroe High School Fire Academy, North Hills, California](#)

[William S. Hart Fire Academy, Santa Clarita, California](#)
