

TESTIMONIALS

"Since we started using ClickSafety in 2007, over 700 employees have taken the courses, from upper management to on-site workers. Because of ClickSafety, both our incident rate and our workers compensation (cost per man-hour) has decreased 40%, saving us valuable time and money and driving home the message that safety is our top priority."

Mike Reichert
 Director of Risk Management
 Pacific Coast Building Services

"ClickSafety's unique learning management system allows me to track employees as to their needs, effort, and progress. I am aware at any point in time as to what their status is for training and certification. The system also allows me to adjust an individual program. This allows me to fully utilize our training resources for the benefit of the employee, as well as our company."

Jim Burroughs
 Safety Director
 BN Builders

Company Overview

ClickSafety uses a flexible, customizable and interactive "student centered" e-learning platform designed to ensure learning and retention. ClickSafety's online learning management and documentation solutions help organizations execute their training objectives and build world-class safety cultures. Since 1999, ClickSafety's training solutions have been deployed to over 10,000 organizations worldwide, including 55% of ENR Top 100 Contractors, as well as leading construction, general industry, and engineering firms. Our customers have come to rely on the flexibility, security, and scalability of ClickSafety's solutions to increase productivity and reduce operating expenses.

ON-DEMAND TRAINING SOLUTIONS

ClickSafety offers one of the most comprehensive online safety course libraries available — from OSHA 10- and 30-Hour to general employee, and safety awareness to advanced training for specialized workers. Our safety courses are developed by on-staff Certified Safety Professionals (CSP), Certified Industrial Hygienist (CIH), Registered Environmental Health Specialist (REHS), Safety Trained Supervisor (STS), Construction Health and Safety Technician (CHST), OSHA Authorized Trainers, Associate in Risk Management (ARM) and industry renowned professionals to ensure that our courses meet the latest safety standards and regulations.

Our course offerings include:

- ✓ OSHA-Authorized 10- and 30-Hour
- ✓ Construction
- ✓ General Industry
- ✓ Environmental
- ✓ Advanced Safety and Health
- ✓ Management
- ✓ Awareness
- ✓ California Specific & Cal/OSHA
- ✓ Certificate
- ✓ DOT
- ✓ Employee Orientation
- ✓ Human Resources
- ✓ Spanish (50 Courses)
- ✓ Custom Course Development

Customers Include:
