# WHY CHOOSE CLICKSAFETY?

ClickSafety's online learning management, compliance and documentation solutions help organizations execute their training objectives and build world-class safety cultures. Since 1999, ClickSafety's training solutions have been deployed to over 10,000 organizations worldwide, including leading construction, general industry and engineering firms.

## MANAGE SUB-CONTRACTOR TRAINING REQUIREMENTS!

ClickSafety's customizable contractor training portals let you assess sub-contractor training needs, then assign and implement safety training as needed for specific tasks. Communicate policies and procedures, identify hazards and safe work practices, quickly deliver information such as designated parking areas, work schedules and regulatory requirements.

## AUTHORIZED PROVIDER OF CONTINUING EDUCATION (CEUS)!

ClickSafety's relationship with IACET and our adherence to the ANSI/IACET 1-2013 Standard addressing the Design, Development, Administration and Evaluation of our safety course development program is a demonstration of our commitment to Continuing Education, lifelong learning and high standards for education during an individual's entire professional career.

## SIMPLIFIED COMPLIANCE REPORTING!

ClickSafety provides a web-based solution that simplifies reporting and compliance. Employers can track training and competency in real-time and easily download information for customized reports to meet regulatory and company requirements. Add standard safety and OSHA-Authorized training courses to your corporate library so you can equip workers with the basics of on-the-job safety training.

“

*ClickSafety provides a valued solution to Gilbane for efficient, on-demand delivery of safety training so that access to training is not a barrier to preventing worker injury. As a result, our people have access to safety and health skills development to keep themselves and their coworkers safe and injury free.*
