

Firefighter's ABCs

**Encourages those
with Disabilities to
think about the
Fire and EMS field**

I hope our many 100% free support tools on our site will be shared by you with anyone seeking a career in the fire service and most of all please share with others in your network nationwide and kindly ask them to share.

If you find them useful please subscribe to our YouTube page and share with others in the fire service or other community organizations.

Most of us dream of a career but seldom do we know how to make our dreams become a reality.

Similar is the process for those aspiring to be part of the Firefighter and Emergency Medical Service field.

Many wish to be part an honored profession such as the Fire Service or EMS field but don't know where or how to start.

I am sure many of the youth in our nation face the same situation.

Thus, FFABC's was founded in 1999 to offer diverse and otherwise untapped job seekers resources and tools to streamline these efforts to enter this desired career field.

During these times of social change as it relates to diversity in the fire service, I am asking a small favor.

Please mentor a high school student one female and one male to join our 100% Free Firefighter's ABC's Online Internship program at www.FirefightersABCs.com

Please share this with at least five other people nationwide that will also join our effort and do the same.

Help share this YouTube link and this PDF with others in your community both in the United States and in Canada.
